TECHNOLOGY PLAYS A CRITICAL ROLE IN BUSINESS DEVELOPMENT

The world we live in today is mostly depended on technology especially, industry, most entrepreneurs have to adjust their marketing models to the technology that is always changing. Technology plays critical roles in business development, market expansion, organizational growth, commercial opportunities including creating competitive advantage over competitors.

As Brandex Directory is the advertising service provider, we continue to develop our product with combination between technology and innovation appropriately. We modernize the digital media as the technology trend. We adjust the technology to the media by AR Technology. We apply 3D animation to the media for creating animated advertisement through application called **Pi MAR**, a new innovation is applied to magazine and simply to download on app store and play store. We publish our magazine as local languages of CLMV countries (Cambodia, Laos, Myanmar, Vietnam) and upload in form of online electronic book on www.ebookstore.aecgateway.com.

With the launching of Brandex over 15 years, we are the consulting company who provide professional advice service to suppliers, purchasing officers and wholesalers in industrial enterprises. We are the media leader who applies modern technology as well as new innovation to different types of printed media. Moreover, we search the international market as the representative of Thai entrepreneurs in order to make business connections with foreign entrepreneurs through events and business matching. We intend to support Thai industry to move forward with achievement and efficient growth.

“ SMART LEADERSHIP

IS TO STRENGTHEN ORGANIZATION WITH
ONGOING DEVELOPMENT ”

Q.

Nowadays, Thailand's economic model is transformed into Thailand 4.0 which is driven by innovation, technology and creativity. Do you think this transformation will affect to your business among Thailand's economic fluctuations?

A.

Abpon Co., Ltd., one of the leading fastener and industrial parts manufacturers in Thailand, provides a complete range of fasteners, industrial parts, chemical products according to international standards. We also support made to order special size screws service to meet customers' needs. With more than 40 years' experience, we continue to develop our organization with effective personnel development and excellent customer service.

Nowadays, technology and innovation offer opportunities to grow the business. As we are in the manufacturing industry, we always adjust marketing and financial plan for coping with unpredictable future. We continue to develop our products in order to catch up with technology trends and create competitive advantages. In return, technology can affect to negative side for example, some products which customers need are obsolete because something better has been invented. Consequently, smart leadership is to strengthen organization with ongoing development.

“EFFECTIVE MANAGEMENT IS THE KEY TO SUCCESSFUL INNOVATION LEADERSHIP”

Q.

Nowadays, Thailand's economic model is transformed into Thailand 4.0 which is driven by innovation, technology and creativity. Do you think this transformation will affect to your business among Thailand's economic fluctuations?

A.

Certainly, Technology and innovation is unavoidable whether company limited or any organization. Our company, Boonyium & Associates Ltd. is concerned with machinery and thermal energy. We are the representative of global brands such as CLEAVER BROOKS, FULTON, A.O.SMITH, OILION, TANDEX, ELLIOTT, MAXON for providing sales and installation services for steam boiler, industrial boiler, water heater, oil and gas burner, and etc. With ongoing development of technology and innovation in the digital age, we need to adjust our business to the trend and update the new innovation for serving products and services as customers' needs and satisfaction. We apply automation (automatic control without human assistance) to develop our products to be SMART Boiler, the newest innovation which is designed to save time, labor cost, and also provide accurate information through smartphone. However, we believe that effective management is the key to successful innovation leadership in the digital age.
